

Camp Opportunity is a non-profit overnight summer camp program specifically for the children of Santa Cruz County that are or have been involved in the child welfare system. Our program is based on the concept that it takes only one person to make a difference in the life of a child.

Many of our volunteers are former campers, as well as current and former foster youth. We welcome volunteers of all backgrounds and experiences to ensure a diverse team that can best meet the needs of our diverse campers.

We are looking for volunteers who:

- enjoy working as a collaborative team
- know how to ask for help
- can appreciate the uniqueness of each camper
- are open to learning and growing
- value diversity and inclusion

Volunteer opportunities include camp counselors and activity leaders. Counselors are matched individually with a camper for the week. Activity leaders provide support to a variety of aspects of our program. All staff must attend the full week of camp, including staying overnight.
